Subject: Re: Request for determination for the Certificate of Need program

Dear Karen Lawfer,

Per our discussion on the phone the c-arm is a OEC-9000 and was actually built in 1989. It is not even available through any of the companies that supply refurbished c-arms secondary to its age and advances in technologies. I do not have the original price on the unit since it has changed hands several times in the 22 years since it was built. The other issues was the circled items. The circled items are the only items we will need to stock the ASC. If I can answer any other questions please do hesitate to call me at 907-841-4522. Have a good holiday weekend. Tom Grissom, M.D.

Dr. Grissom,

Attached is the letter you will be receiving shortly.

From our telephone conversation this afternoon, if you are unable to provide me with the original purchase price, but the age of the items listed in #1 that will suffice.

Thank you for your time.
