RE: Request for determination of exemption from CON- Proposed Kenai ASC Project

Dear Ms. Lawfer,

I am pleased to represent Surgery Center of Kenai, LLC in the submission of this request for determination of our project's exemption from certificate of need. It is our understanding, among other requirements, that if expenditure costs do not exceed \$1,450,000 for a project completed after July 1, 2013 a CON is not required per AS 18.07.031.

We will be remodeling approximately 3,727 sf in a multi-tenant building located at 100 Trading Bay Drive in Kenai. The ASC will have just one operating room and such ancillary spaces and services as are required to meet State of Alaska licensure and Medicare certification.

The project will commence upon receipt of a determination decision from your agency, which we would expect to be around July 30, 2013. Construction is estimated to take 3 months, with State inspection likely around mid-November. Once the requisite number of cases has been completed it is our intention to apply for inspection by the Accreditation Association for Ambulatory Health Care (AAAHC), a precursor for Medicare certification.

The estimated project cost is \$1,136,272 and is detailed in the attached 'Certified Cost Estimate' signed by an Alaskan licensed Architect.

If you have any questions, please call me (904-654-6220) at your earliest convenience.

Sincerely,

Harold Gear
