	Τ	PROCEEDINGS
	2	(On record)
I'm	3	MS. LAWFER: My name is Karen Lawfer and
program.	4	with the State of Alaska in the Certificate of Need
Fairbanks	5	Today is a public hearing session for
	6	Memorial Hospital, the expansion of their cardiac
	7	rehabilitation services. The application that they have
	8	submitted to the state is to increase the cardiac
feet at	9	rehabilitation unit from 800 square feet to 2800 square
	10	a cost of 2.188 million.
receive a	11	What we do in this process is when we
comment	12	certificate of need application, there is an open
or the	13	period and that comment period allows anybody, one way
closing for	14	other, to provide input on this application. The
Because	15	written comments to my office was Friday at 4:30.
week -	16	everybody at Fairbanks Memorial was a little busy last
	17	congratulations - we're having the public hearing today.
with	18	So, technically, no one can provide me
to	19	additional written comments, except if they would like
period	20	provide me with the written comments during this time
	21	between 5:00 and 6:30; I will accept those. Otherwise,

you	can

 $\,$ 22 $\,$ give any of the oral comments you would like during this time

23 period.

\$24\$ This is a public meeting. It is scheduled from

25 5:00 to 6:30. The reason we do that is to allow people to have

LIZ D'AMOUR & ASSOCIATES, INC.

330

Wendell Street, Suite A

Fairbanks, Alaska 99701

(907) 452-3678

- 1 time to get off work to come here and go on their way. This is
- $2\,$ not a meeting from 5:00 to 6:30. So if you have comments that
- $\,$ 3 $\,$ you want to give, please feel free to give those comments and I $\,$
- $\ensuremath{4}$ will not take any offense if you were to leave, especially when
- $\,$ 5 $\,$ it's such a beautiful day, but that will not have any bearing
 - 6 on what we're doing.
- 7 These -- we are on the record. All these
- 8 comments will be transcribed and Fairbanks Memorial will get a
- 9 copy of all of those. So if you do leave and someone does come
- $\,$ 10 $\,$ in and wants to provide some sort of comment, you will know
 - 11 that because you'll get a copy of that as well.
- 12 So without further ado, I will open it up to
- $\,$ 13 Mike Powers. And if you could come in and just sit up front
- $$14\ $$ here because we have that -- if you could, spell your name,
 - 15 also. That would help.
- 16 MR. POWERS: Good afternoon. Mike Powers, CEO
- 17 at Fairbanks Memorial Hospital and Denali Center. And, first
- $$18\,$ of all, thank you very much for coming all this way for this
- \$19> hearing. And I'm sure the ghost of David Pierce is in the room

	20	with us. And he was always a great health planner and I
the	21	appreciate the efforts the state is making in pursuing
planning	22	certificate of need, which is vital for appropriate
	23	for health services of any community.
rehab	24	As far as phase II regarding cardiac
the	25	services, this is part of an overall plan that's been in

330

Wendell Street, Suite A Fairbanks, Alaska 99701 (907) 452-3678

- 1 works for over -- well over 10 years. It's been a part of
- 2 three strategic plans. We have had considerable input from
- 3 physicians and the community through those various planning
 - 4 processes, and we're now ready to bring this phase II to
 - 5 fruition.
- $\begin{tabular}{lll} $\bf 6$ & & & & & & & & & & & & & & & & \\ & & & & & & & & & & & & & & \\ & & & & & & & & & & & & \\ & & & & & & & & & & & \\ & & & & & & & & & & \\ & & & & & & & & & \\ & & & & & & & & & \\ & & & & & & & & \\ & & & & & & & & \\ & & & & & & & & \\ & & & & & & & & \\ & & & & & & & \\ & & & & & & & \\ & & & & & & \\ & & & & & & \\ & & & & & & \\ & & & & & & \\ & & & & & & \\ & & & & & \\ & & & & & \\ & & & & & \\ & & & & & \\ & & & & \\ & & & & \\ & & & & \\ & & & & \\ & & & & \\ & & & \\ & & & \\ & & & \\ & & & \\ & & & \\ & & & \\ & & & \\ & & & \\ & & \\ & & & \\ & & \\ & & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & & \\ & \\ & & \\ & \\ & \\ & \\ & \\ & \\ & \\ & \\ & \\ & \\ & \\ & \\ & \\ & \\ & \\ & \\ & \\ &$
- $\,$ 7 $\,$ of these plans, we've had experts up from Johns Hopkins, from
- $\ensuremath{\mathtt{8}}$ the University of California San Francisco, from the University
- $\,$ 9 of Washington, all promoting and talking about helping us plan $\,$
- $\,$ 10 $\,$ this effort. Just two weeks ago, we had another cardiologist
- $\,$ 11 $\,$ from the university -- or from Johns Hopkins up who happened to
- 12 be working with university students and saw the first-hand
- $$13$\,$ demonstration of what's happening in our cardiology services,
- \$14> wrote a letter to the community, and said the community should
- $\,$ 16 $\,$ the collaboration between the community and the university to
 - 17 open access.
- 18 Essentially, this service, I think, touches on
- 19 three key elements of health reform; that is, reducing costs,

case, we	20	opening access, and driving quality higher. In this
beyond in	21	minimize unnecessary travel to Anchorage and points
	22	terms of costs. Quality: we have three board-certified
hand.	23	cardiologists, highly proficient and highly skilled on
entire	24	And the access, it's a service never really achieve the
	25	cardiac effort (ph).

330

Wendell Street, Suite A Fairbanks, Alaska 99701 (907) 452-3678

1 So with that, I would like to suggest full 2 approval and adoption of this and, once again, appreciate your 3 efforts in bringing the certificate of need planning process to 4 the community. Thank you. MS. LAWFER: Next, I'll let Karl Sanford 5 -- he 6 has a presentation he would like to give. MR. SANFORD: Thank you very much, Karen, for 8 the opportunity this evening to present to yourself and 9 hopefully the state members our case for expanding the cardiac 10 rehab program here at Fairbanks Memorial Hospital. First of all, I'd like to reiterate, I 11 think, 12 something that Mike was mentioning as well, and that is the commitment that the Foundation, which are the owners on 13 behalf of the community, remind all of us who are in administration about, and that is that it is our responsibility and our obligation to provide only the first class services to 16 those 17 who we serve here in the interior of Alaska. And that is really our goal, is to make sure that that happens in 18 every opportunity possible for us to do that. 19 20 First of all, I'd like to kind of take a little

of the	21	bit of a step backwards and that is to talk about some
time	22	things that we've already accomplished in a very short
that is	23	frame over the last 18 months here in Fairbanks. And
the	24	we've opened up a cardiology clinic in April of 2007,
in	25	first introduction of the cardiology subspecialty here

330

Wendell Street, Suite A
Fairbanks, Alaska 99701
(907) 452-3678
5

1 Fairbanks in which we really have seen over several thousand 2 patient visits; actually, almost 5,000 patient visits in 2008 as well as a continuing of that well into 2009. And an example 4 as -- again, in just one five-day period, we had 62 new patient 5 referrals in the second week of January, which we anticipated 6 would probably be a slow time, but lo and behold that wasn't the case at all. That really just tells us that we chose the 9 right subspecialty to bring to the community. It was certainly 10 something that the community had been asking for for quite a few years, and that we have begun the process of bringing that 12 in the correct fashion. 13 Following that, the introduction of the clinic services, in December of '08, we opened up the cardiac 14 cath 15 lab, which is also a result of the certificate of need process, 16 which required lots of due diligence on our part as well as on the community's part. In the entire year of 2008, we 17 completed 472 cardiac cath lab procedures, all of which would have 18 gone

19 and been transported to the Anchorage area or points

south,

and	20	which just historically for all the years we went back
to bring	21	measured had happened prior to that. And we were able
words	22	that service here with a door-to-balloon time, in other
point where	23	the presentation point in the emergency room to the
45 to	24	we reestablished coronary blood flow from anywhere from
minutes.	25	88 minutes. The national standard being less than 90

330

Wendell Street, Suite A Fairbanks, Alaska 99701 (907) 452-3678

from 26	1	Again, we saw people in the age ranges
54 of	2	to 82 years of age and we subsequently discovered that
them	3	our community citizens could best be served by referring
bowl.	4	on for bypass surgery in predominantly the Anchorage
have	5	Those patients go down, receive that surgery as they
receive	6	historically, and then come back into the community and
be	7	cardiac rehab at that point in time. And I'm going to
a	8	linking that with our cardiac rehab request here in just
	9	moment.
	10	And, again, we serviced 179 individuals
either	11	presenting to us just in the last year that received
both of	12	angioplasty or cardiac stent placement, and sometimes
	13	those services were provided. And by ACC as well as CMS
cardiac	14	guidelines, those patients now become eligible for
	15	rehab services as well.
space	16	Specifically, the cardiac rehabilitation
the long	17	that we're proposing to expand is currently housed in
currently	18	hallway adjacent to the outpatient center which is
propose	19	been in place for several years at FMH. What we would
-	20	to do is to really expand that into a new addition in

the

- $\,$ 21 $\,$ northeast corner of the cardiology center, thereby allowing
 - 22 future services also to be expanded, and, particularly,
- $\,$ 23 $\,$ equipment expansion and the ability to have greater through-put
 - 24 of patients.
- 25 Right now we're physically limited to the

330

Wendell Street, Suite A Fairbanks, Alaska 99701 (907) 452-3678

- $\ensuremath{\mathtt{1}}$ amount of patients that we can through-put in the small area
- 2 that we have. As you can imagine, 800 square feet does not
- $\ \ \$ allow for a lot of mobility with both equipment placement as
- 4 well as patients coming in and out, as well as classes or
 - 5 sessions being changed.
- $\,$ 7 $\,$ cardiologists right next door in the clinic; it will allow for
- $\,$ $\,$ quick consultation services by the cardiac rehab staff, as well $\,$
- $\,\,$ 9 $\,$ as we anticipate that they will also come over and provide some
 - 10 educational services for the clientele.
 - 11 We have accommodated a special area for
- 12 educational services to be included. This right now is done,
- $\,$ 13 $\,$ as you will see in a moment in future slides, is being done in
- 14 a multi-service area that has both equipment as well as places
- 15 for coats and so forth to be stored, and just isn't conducive
- 16 to really a smooth flow. We also have a very large and very
- $$17\ $$ adequate space allocated for treadmills and elliptical trainers
 - 18 and so forth with a very beautiful external view of the
- 19 facility itself. This is something that as we've traveled
 - 20 throughout the country and looked at other cardiac

		21	rehabilitation	programs	is	truly	the	standard	of	care	as
we	can										

- $$22$\,{}$ imagine we see in athletic centers and other similar types of
- $\,$ 23 $\,$ services across the country. This is very, very important for
 - 24 those clients.
- 25 Currently, our -- these slides here depict our

330

Wendell Street, Suite A

Fairbanks, Alaska 99701

(907) 452-3678

- 1 current overcrowding situation we have. Here is the doorway
- 2 entry into the program and here, one right next to the other,
- $\,$ 3 $\,$ all the pieces of equipment, again all of the treadmills, and
- $\ensuremath{4}$ the staff work area is truly within the exercise area. This is
- 5 the four- to five-seat, as we squeeze everybody in, educational
- $\ensuremath{\text{6}}$ opportunity that we have. It doesn't really allow for the
- $\,$ 7 $\,$ anticipated volumes that we expect to see with an enhanced $\,$
- $\,$ 8 $\,$ cardiac services program as we look forward into the years to
 - 9 come.
- 10 As we looked at our current visits, number of
- $\,$ 11 visits that we see, we know that surgery-based visits which is
- $12\,$ what we've currently had, we know that 2,600 is approximately
- $\,$ 13 $\,$ what we've seen year in and year out, and those are patients
- 14 that we refer down for bypass surgery, and then coming back
- 15 into the community, entering into the cardiac rehab program.
- 16 With our ability to provide catheterization services locally,
- 17 we know that we anticipate expansion of that cath lab volume
- $\,$ 18 $\,$ over the next five to ten years, as well as adding that on to
 - 19 established volumes that we already have. We believe

that	we
------	----

20 can well justify not only the square footage, but also
the

21 equipment costs and the investment on behalf of the
community

22 into this very, very vital service.

23 Just to reiterate real briefly, the
three

24 phases of cardiac rehabilitation really begin at the
point

25 where the patient is admitted into the hospital. The

LIZ D'AMOUR & ASSOCIATES, INC.

330

Wendell Street, Suite A Fairbanks, Alaska 99701 (907) 452-3678

- 1 room screening process, getting them to the cath lab certainly
 - 2 is the acute phase for that. Over the next two days, if
- 3 they've had intervention, our patients typically go home in $\ensuremath{\text{3}}$
- $\ensuremath{\mathtt{4}}$ approximately 48 hours at the point where intervention is
- $\,$ 5 $\,$ concluded; typically 24 to 48 hours. We really introduce all
- $\ensuremath{\mathbf{6}}$ the patients at that point in time into the cardiac rehab
- $\,$ 7 $\,$ program, whereby our cardiac rehab staff go up and introduce
 - 8 themselves and they introduce the concept of cardiac
- 9 rehabilitation, and begin to have patients receive education
 - 10 for that.
- 11 Then, subsequently, the patients can either
- \$12> enter our standard program whereby they participate three days
- 13 a week for 36 sessions or a three-month period. And in some
- \$14\$ cases where that may not be possible, they can, if you will,
- 15 negotiate with our director for cardiac rehab for a more fast-
- \$16\$ track type of an approach. But that needs to be done with
 - 17 physician's approval.
- 18 And then finally in the phase III component,
- 19 those are what we term as our maintenance clientele; those are
 - 20 patients which it becomes much more of a lifestyle

maintenance,

have	21	a lifestyle camaraderie type of a program where they
you	22	undergone similar experiences. It's a support group, if
cheer	23	will, whereby these individuals work with each other and
typical to	24	each other on for years and years. And it's very
family	25	see this kind of a program where they become almost a

LIZ D'AMOUR & ASSOCIATES, INC.

330

Wendell Street, Suite A Fairbanks, Alaska 99701 (907) 452-3678

1 type of a setting and mindset, which is very wonderful and encouraging to see that as well. Again, the goals of cardiac rehabilitation is, 4 honestly, to reduce the exercise-induced ischemia from 5 recurring hopefully by increasing your metabolism, decreasing 6 body fat therein the dependency or the requirements of your 7 heart workload, increasing oxygenation to the body tissues is 8 certainly your myocardium or your muscle of the heart, and also correcting any cholesterol issues you might have, lowering the 10 LDL or bad cholesterol, and increasing your HDL or good 11 cholesterol. And there are certainly psychological 12 improvements as well. 13 Construction we anticipate, hopefully, will be as soon as we receive approval from the certificate of need department, as well as ultimately the commissioner, 15 certainly. 16 And we anticipate completion of that in a year after that, 17 being June of 2010, if not sooner. Again, this slide depicts all of the years of work as Mike referenced earlier that 18 has gone into bringing cardiology, the subspecialty, into the Fairbanks community, and this is merely one more step to

allow

21	115	tο	create	а	comprehensive	program
$\Delta \perp$	ub	LU	CIEate	а	COMPLEMENTAL	program.

- \$22\$ And, finally, during this time frame whereby we
- $\,$ 23 $\,$ enhance the cardiac rehab, we will certainly go ahead and
 - 24 continue on with services we've already established, the
- $\,$ 25 $\,$ cardiac cath lab, as well as other services, pacemaker and so

330

Wendell Street, Suite A Fairbanks, Alaska 99701 (907) 452-3678

forth. The Hospital Foundation are the owners of the hospital itself, on behalf of the community, is financing this project as they do all capital projects in the -- at Fairbanks Memorial Hospital/Denali Center. And, certainly, we know that we have the support of our medical staff and certainly the hospital clinical staff, and patients utilizing this service. 7 If I can answer any questions from anyone in the audience or, Karen, of yourself, I will appreciate the opportunity to share this information with you. 10 MS. LAWFER: Okay. Thank you, Karl. And do T have anyone else signed up to speak? If you could come 11 up and use the microphone, and make sure you spell your name. 12 13 MS. HOLLINRAKE: My name is Ivy Hollinrake, I-v-y H-o-l-l-i-n-r-a-k-e. And I've been the manager/supervisor of the cardiac rehab for 12 years and 15 SO 16 this is rather personal for me because I take care of these 17 patients that are going through their recovery phase. And the growth of the program has been phenomenal. 18 increase in technology, we're getting certainly patients back out in the

community, but getting them back on their feet, but they

			-	
n	9	0	М	2

- 21 lot of rehab to get them stable and confident in their
- 22 recovery. With the increasing diagnoses that Medicare

covers,

23 we have more that are eligible for cardiac rehab that

weren't

- 24 before.

LIZ D'AMOUR & ASSOCIATES, INC.

330

Wendell Street, Suite A

Fairbanks, Alaska 99701

(907) 452-3678

more 2 referrals and improving our process. And now with the clinic 3 next door, the referrals have -- in a month and a half, we have increased by yet another third. So we are squeezing into our 5 very tight space, with the pictures you can see there. So we 6 kind of -- everything happens in that room. exercise, the education, the monitor hook-up, the intake interviews for the patients, the private moments when they're going through some emotional time, it all takes place in there. So there's not much room when someone is emotional or when I'm seeing a 10 new patient and they need a little bit of privacy to kind of take it all in and talk about some of their personal private 12 issues or their money or whatever is worrying them, which is a big 14 part of their cardiac recovery. There is just not enough 15 space. 16 When we have patients that -- we are

getting

there's

when we

17

1 with the three cardiologists on board, we're getting

19 have someone who has an emergent event, it's difficult

patients in wheelchairs and walkers come in there, and

hardly room to manipulate the equipment in there and

to	get	. a

- 20 stretcher in there to get them on it. And we have --
- $\,$ 21 unfortunately, we have a lot of big people in the community.
- 22 They come in and they're a rather large size and it's very
- $23\,$ intimidating because there's not much space to get between the
- $$24$\ \ equipment, and so they have a tendency not to come back because$
- 25 they're kind of embarrassed because they feel crowded and

330

Wendell Street, Suite A Fairbanks, Alaska 99701 (907) 452-3678

they're bumping into people and there's no -- it doesn't allow them much room and much confidence. And those are some of the people we really want to target to help them with their recovery. So right now it's all taking place in this very small room and so it's just the need, the growth -- the need for this to expand and to develop the space to care for these 8 patients adequately and give them the tools to change their lifestyle. With cardiac rehab, the patients have decreased morbidity and mortality. They have decreased ER visits. They 11 have decreased time needed to be spent in the clinic because we can take care of a lot of their little issues and talk 12 with the doc and fine-tune their system without having multiple visits. Just the fact that we keep most of our patients here now 15 instead of shipping them to Anchorage, they're so happy that 16 they don't have to incur that huge expense to go to Anchorage to take care of all of this, and they like being cared 17 for by locals as much as they can. And a lot of them are 18 taking out like right -- whatever they can afford. I mean, one of my

our	20	patients gave me a fifty dollar check today to help with
it's	21	new program and stuff. They're just they say, I know
me a	22	not much, but it means a lot to me and you guys helped
	23	lot.
just to	24	So to see this growth, a huge need, and
the	25	have the space to adequately treat them and to give them

330

Wendell Street, Suite A Fairbanks, Alaska 99701 (907) 452-3678

1 privacy that's needed and afforded, and just to continue with 2 our cardiology program, which is much needed. Thank you. 3 MS. LAWFER: Thank you. Is there anyone else who would like to come up? I don't mean to make it this formal, but it helps get you on the record. 6 MS. BRUMMETT: My name is Belinda Brummett. I'm the director of the cardiology clinic. B-e-l-i-n-dа 8 B-r-u-m-m-e-t-t. And I'd like to also register my support fully for the expansion of the cardiac rehab center. 10 I have been working with the cardiology clinic 11 now for about three weeks; this is week four being the 12 director. And there's not a lot I can add to what you've already heard other than to tell you that I've witnessed what the patients are experiencing in there. It's a very 14 tight, confined space. And with the growth of our patient 15 volumes on the clinic side and in the cath lab, the obvious overflow into rehab really does necessitate the need for more space. Today I went in to visit with Ivy and as 18 Ι opened the door to come in, there's a little lady squeezed in 20 behind the door trying to get on the exercise bike to

start,

- $\,$ 21 $\,$ and I felt terrible coming in and getting into her space. And
 - 22 there's really no other way to configure things so that
 - 23 everything will fit in.
 - So this new space will be a welcomed
- $\,$ 25 $\,$ improvement to the program as it continues to grow, as we're

330

Wendell Street, Suite A Fairbanks, Alaska 99701 (907) 452-3678

```
1 seeing growth in other areas in the facility. Thank
you.
             2
                                MS. LAWFER: Would anybody else like to
speak?
             3 If not, we will go off the record. If someone else
comes,
             4 we'll go back on the record.
             5
