RE: Advanced Sonograms of Alaska Inc.

The following letter details the construction timeline and intended use of the new office space of Advanced Sonograms of Alaska Inc. at 4200 Lake Otis Parkway, #103.

The project start date was June 21, 2007 and the completion date was October 8, 2007.

We currently have one diagnostic ultrasound unit in our office in service. Our office space was designed to utilize an additional ultrasound unit if needed. The addition of a second ultrasound unit would still keep the entire project below the dollar threshold for requiring a Certificate of Need set forth in the standards of regulation 7AAC 09.010. The information that we have provided CON previously included the cost of our ultrasound unit. The cost of an additional unit would be comparable to our existing unit.

Thank you for your time and consideration. Please contact me if there are any questions or need additional information.

Sincerely,

Scott Pickett

Re: Advanced Sonograms
4200 Lake Otis Parkway
Anchorage, Alaska

David,

As the architect for the design of tenant improvements for the new offices for Advanced Sonograms, I have been asked to provide a letter stating the cost of those improvements.

The construction was performed by Handle Construction Company of Anchorage, Alaska and their cost to construct the project was just under \$120,000.

Hopefully, this addresses you questions. 1

Naturally, if you have any questions, please feel free to call me at (907) 274-1643 or email me at don@dondwiggins.com.

Thank you.

Cordially,

A handwritten signature in black ink, appearing to read 'Dwiggins', with a long, sweeping horizontal line extending to the right.

Donald W. Dwiggins, Architect
