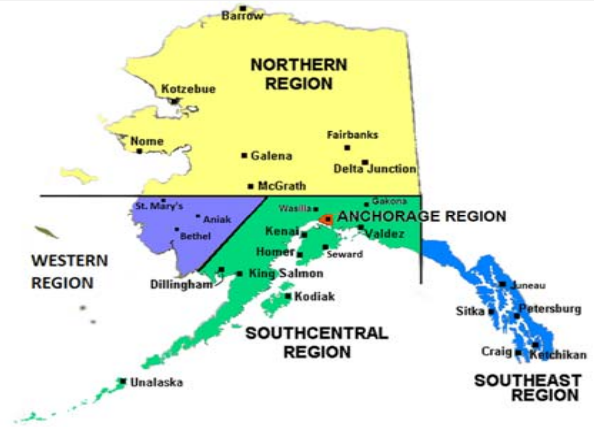
Federal Fiscal Year (FFY) 2010 and FFY 2011 State and National Targets



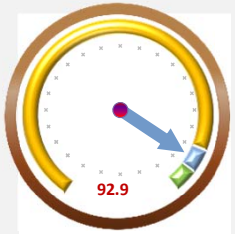
National Standard: National Standard is calculated by the Administration for Children and Famalies (ACF) and is based on abuse, neglect, and foster care data submitted to ACF by all states in 2004.

PIP Goal: Following the Child and Family Services Review, the state worked collaboratively with our Federal partners to establish goals for improving scores on measurements that reflect improvements in outcomes for children who are in foster care or who were victims of abuse and neglect.

State: Using the State's data, it is the current state score using the same methodology used for calculating the National Standard and PIP Goal and is based on the most recent data submitted to ACF by the State of Alaska.

FFY 2010* (10/01/2009 - 9/30/2010)

Absence of Maltreatment Recurrence



State	92.9%
